#### **Explanatory Note**

This Report is organized by  
program and by grant category  
within each program. An  
organization may receive  
funds from more than one  
program and from more than  
one grant category within a  
program. The index will  
enable the reader to locate  
each instance of financial  
support for any organization.

Grant recipients are listed by  
their legal names.

## NYSKA AND THE REGRANT PROCESS

As a matter of policy, the New York State Council on the Arts, through several of our programs, supports regrantants in order to broaden service and outreach to our constituents. What follows, then, is a brief description of our regrant programs.

The **Architecture, Planning and Design Program** offers two regrant programs. Regional technical assistance for the North Country is administered by the Essex Community Heritage Organization in Essex. The Program's main statewide regrant effort is a partnership with the Preservation League of New York State to give grants for documentation projects in the field of historic preservation: historic structures and landscape reports as well as cultural resources surveys.

The **Electronic Media & Film Program** offers several regrant initiatives. Through the Experimental Television Center in Owego, matching monies are made available for artists to appear with their work as well as for film and video screening expenses. Through Women Make Movies in Manhattan, funds have been awarded to assist in the distribution of completed audio, film and video productions. In addition, an initiative to promote media arts networking upstate with the assistance of Media Alliance in Manhattan has been established, funding a variety of projects.

The **Individual Artists Program** rotates funding categories on an annual basis. In FY96, the program supported grants to Film and Music artists. In addition to these project grants, the program regrants a portion of its allocation to the New York Foundation for the Arts for its statewide fellowship program and other services to individual artists. In FY96 112 artists received fellowships.

The **Literature Program** funds Poets and Writers of Manhattan which, in turn, sponsors workshops and readings in all 62 counties of the State.

The Technical Assistance Program of **Special Arts Services** assists the institutional development of arts organizations of color and serving distinct ethnic communities throughout the State. With a two year grant from the National Endowment for the Arts and renewed support from the Council, the Technical Assistance Program is now a two-tiered initiative. Grants are made to emerging and developing multicultural arts organizations to improve critical managerial and organizational development issues with the assistance of a professional consultant or consultant team.

The **Visual Artists Program** provides opportunities for individual artists and curators to develop new work through its discipline specific regrant program in crafts, installation work, photography, performance art, public art projects and sculpture. Administered by a number of nonprofit arts organizations throughout the State, these programs offer project funding and/or supportive workspace opportunities for artists to create and present new work. Additional regrant opportunities are currently available to independent curators through the Delaware Valley Arts Alliance in Narrowsburg.

## ARCHITECTURE PLANNING & DESIGN

The Architecture, Planning and Design Program's mission is to increase the awareness and appreciation of the built and designed environment and to advance excellence and innovation in the design and planning fields. The program uses four strategies to achieve its mission: it offers institutional funding to organizations that provide ongoing services and programs in the design fields; it supports public education projects about architecture and design; it gives funds to a wide variety of nonprofits and municipalities to hire professionals in the design fields; and it supports and catalyzes the design fields themselves through direct grants to individuals.

## ARTS IN EDUCATION

The Arts In Education Program funds partnerships between schools and cultural organizations that involve teachers, artists and arts professionals in well-planned, structured programs. These programs typically result in direct, active arts experiences for students ranging from pre-K through 12th grade. The AIE Program is a cooperative effort between the Council, the administering and funding agency, and the State Education Department. AIE also works closely with its applicants and with statewide service organizations to advance and develop the field of arts in education.

## CAPITAL AID

The Capital Aid Program makes grants and low interest loans available for the improvement, expansion or rehabilitation of existing buildings owned or leased by nonprofit cultural institutions that receive programmatic funding from the Council. The Capital Program has become a critical source of support for essential capital projects, helping many of New York State's cultural organizations ensure that their facilities are safe, comfortable, and accessible to all New Yorkers.

## DANCE

The Dance Program's primary goal is to help make possible dance performances of high professional standards for the people of New York State. Dance organizations eligible for support include ballet, traditional, modern and avant-garde, ethnic, jazz and historical dance companies as well as dance service organizations and consortia serving management needs. Of special interest in 95/96 was the funding of a developmental project—the New York State Task Force on "Partnerships in Dance," which is dedicated to increasing the level of dance activity around the state. Co-administered by Pentacle and Dance Theater Workshop, it is being financially conduited through DanceWorks (see listing under the category of Long Term Residency in New York State). Due to budgetary constraints, the Building Ballet Repertory category was suspended in 95-96, and Commissions was available only to upstate dance companies.

## FOLK ARTS

The Folk Arts Program supports activities that help perpetuate the state's living cultural heritage of the folk arts. It is committed to maintaining the extraordinary cultural and stylistic diversity of New York's traditional arts. The Program's funding reinforces traditions within the ethnic, regional, religious and occupational communities within which they originate. Support from the Program also provides opportunities for general audiences to experience the folk arts of different cultures, which express their ways of life, shared values and sense of beauty. Through Folk Arts Program funding, cultural organizations organize presentations of folk arts and artists, document traditions and develop interpretive programming.

## INDIVIDUAL ARTISTS

Support for the creation of new work by New York State artists is fundamental to the Council's mandate. Much of this support is provided through the Individual Artists program which administers awards for project support for the creation of new works in film, media, music and theatre. The categories rotate each year. This year the Individual Artists Program supported over 50 artists through direct project support in Film Production and in Composer Commissions.

Funding from the IND Program is also awarded to NYFA to support its Fellowship Program and the Special Opportunity Stipend (S.O.S.) Program.

## LITERATURE

The Literature Program supports organizations that promote the creation, publication and distribution of important writing and that encourage the appreciation of literature by the general public. The program directs assistance to writers principally through support of readings and workshops, literary magazines and non-commercial book publishers, residencies and translation projects. In FY96, infrastructure development in the literary field received enhanced support through the General Operating Support and Special Projects categories.

## MUSEUM

The Museum Program supports activities which ensure the preservation, care and interpretation of New York State's cultural heritage. It funds a broad spectrum of museums, including art, history, science and children's museums as well as organizations providing services for museums. The Program emphasizes responsible stewardship through collections management, and public access to high quality exhibitions and educational programs. Technical assistance provided through the Program enhances the professionalism of all aspects of museum programming, management and operations. Recognizing the need to broaden audiences for all museums, the Program stresses support for activities which interpret the art and history of traditionally underserved populations.

## PRESENTING

The Presenting Program provides support to both established and developing organizations that present, pay and promote artists and ensembles in music, dance, theatre, mime and performance art for public appearances. The Program's main purpose is to help make possible culturally diverse performances of high professional standards and artistic excellence for the people of New York State. Special consideration is given to organizations that have as their main purpose and function the development, promotion and dissemination of the arts for audiences of all ages.

## SPECIAL ARTS SERVICES

The Special Arts Services Program seeks to enrich the artistic/cultural pluralism of New York State by supporting arts activities within the African/Caribbean, Latino/Hispanic, Asian/Pacific Islander and Native American/Indian communities, as well as other ethnic groups wishing to perpetuate distinct traditions. The program fosters the development of artists and organizations and their outreach efforts to specific communities, by improving access to arts training opportunities and cultural heritage education through performances, exhibitions, workshops and special initiatives.

During this period the Program initiated a special Cultural Incentive Program for Buffalo and Erie County, designed to further develop the management and organizational capabilities of arts organizations in that region of New York State. Funding was provided in cooperation with the National Endowment for the Arts State and Regional Program/Arts in Underserved Communities, and the Council's State and Local Partnership Program.

## STATE & LOCAL PARTNERSHIP

The State & Local Partnership Program supports local cultural development in communities around the state with the goal of increased awareness of the arts through public information, innovative programming and community/regional cultural planning. Central to this goal is an active network of local arts councils providing services and activities to county-wide or regional constituencies. The program also supports community-based multi-arts centers and service organizations.

## DECENTRALIZATION

Local Decision making is the basic principle of the Decentralization Program in supporting a wide range of community-based professional and avocational arts programs in diverse communities throughout the State and, through sponsoring organizations, to help support the work of local individual artists. The goal of the Decentralization Program is to support the continued development of local cultural resources responsive to community cultural needs.

## THEATRE

Theatre Program funding reflects support for a broad spectrum of forms—including contemporary, classical, alternative, music theatre and theatre for young audiences. During FY96 support for General Operating Expenses and artists' fees constituted the majority of grants. In addition to this basic support the Program offered funding for Shared Resources—a category designed to encourage collaborative solutions to economic and artistic challenges. Two projects, both operating in Buffalo, were chosen for support as models of collaborative problem-solving. Twelve emerging theatre groups received first-time support through The New Theatre Advancement category. The Services to the Field category supports organizations that provide technical and developmental support to theatres, artists and audiences. Funding during FY96 also included support for publications that provide a forum for the exchange of ideas and information about the theatre. The awards for special Developmental Projects reflect the Program's service goals, and its commitment to individual artists' creative work. Support was directed to the Alliance of Resident Theatres' Organizational Reassessment Program which offers comprehensive technical assistance to mid-sized theatre companies; and the New York Foundation for the Arts as a conduit for a Technical Assistance Fund aimed at enhancing the marketing and development efforts of small and mid-sized companies outside of New York City. NYFA also served as a partner in the administration of grants to individual theatre artists to develop New Works.

A Council-wide program, the 1996 Race for the Arts, is reflected in the Theatre Program budget. The project, which was designed by Anna Becker, culminated in September 1996 with a 5-kilometer Walk/Run to Lincoln Center to celebrate New York's cultural resources. CSC Repertory Theatre served as fiscal conduit.

## CHALLENGE '96

The Upstate Challenge Program for Fiscal Year 1996 was directed only to organizations based outside New York City. The Council was directed to open the program to any arts organization with the appropriate non-for-profit status. As a result, several hundred of the applicants were Decentralization re-grantees which heretofore were not eligible to apply to the Council directly.

The Challenge expenditure detailed below covers two years of funds. Challenges 1, 2 and 3 represent the second payment of the Fiscal Year 1995 program which was directed only to New York City-based organizations. No new programming was required for the 1996 Challenge; in every instance, organizations expanded on existing programs or amplified their audience development and promotion.

The following lists detail the FY95 New York City Challenge recipients followed by the FY96 Upstate Challenge recipients located outside New York City.

## PRIMARY ORGANIZATIONS

Primary organizations are defined as "eligible arts organizations which by the quality of their arts services, their stature as arts institutions on a state or national level, or by the importance of their contributions to a significant population or the arts discipline in which they specialize, are particularly important to the cultural life of New York State, and the loss of which or the diminution of services would, in the opinion of the Council, constitute a serious artistic loss to the people in the State." In compliance with a legislative mandate, at least 50% of the Council's local assistance funds were awarded to the following cultural organizations, and this list was filed with the State's Division of Budget for the 1995-96 fiscal year.

## 1995-96 FUNDING BY COUNTY

The Council's appropriation act mandates that "the residents of each county receive arts services proportionate to at least 40 cents per capita of population in each county, except that Council grant standards of artistic quality and administrative competence must be met." In 1995-96 the Council awarded grants to organizations in the state's counties in the amounts detailed below. The required amount is based on the 1990 census figures. The Council's response to the mandate is made through grants to organizations which apply to any and all Council Programs through the normal application process. In addition, grants are made to organizations that provide arts services on a statewide basis. Grants for these purposes are shown at the end of the list as "Statewide."
